

## As an educator, you face unique challenges...

Today, educators face special challenges – budget cuts, students at risk, school safety, parental issues – and more. In addition to these on-the-job stressors, you juggle the challenges of your own personal and family issues. Usually, we can handle problems on our own, but sometimes it makes sense to reach out for help.

That's why your employer provides you and your family with a confidential Employee Assistance Program or EAP, a benefit offering resources and solutions for the problems you encounter. Just as health insurance addresses your physical health, your EAP benefits help with your emotional and mental well-being. And your EAP benefits also include much more than just help for problems – we have a host of benefits and opportunities to help you grow professionally, save money, improve your health, and enhance your personal life! Best of all, because your employer has covered the cost of services, there is no cost to you.
