

ESI Online Training Center Toolkit for HR

ESI is not just an EAP, we are also a training resource, offering thousands of 24/7 on-demand training courses ranging from compliance training to core skills that your organization needs to remain competitive. We offer comprehensive training tools at no extra cost to support your employee development program through the award-winning online training vendor, BizLibrary, as well as many other training options.

We've developed this HR Toolkit to help your team administer your Employee Development Program through ESI's Training Center. These tools are located in the online Supervisor Center. Click the button below to learn more.
